CORE COMPETENCIES

Northeast Infrastructure, LLC, a **SDVOSB** assists the Department of Veterans Affairs in its mission to care for America's Veterans by providing Mechanical, Electrical and Plumbing Engineering, Site and Civil Engineering, Contract Management, Project Management, Surveying and Landscape design to improve the infrastructure at facilities serving our Veterans.

- Underground Utility investigation/design
- Roadway and parking lots
- Wastewater Treatment/Sanitary design
- Security fencing/gates
- Landscape design
- Walkways/tunnels
- Site survey, prep and design

PAST PERFORMANCE

Upgrade Fire Protection Piping and Loop | VAMC Wilkes-Barre, PA | VA244-13-R-1156

NEI provided Contract Management, Project Management, Site and Civil Engineering, MEP, and QA/QC services for this \$3 million project consisting of **upgrading the exterior water piping and sanitary sewer systems**. Work included architectural, civil, electrical, mechanical/HVAC, plumbing, landscaping, life safety and telecommunications design. NEI coordinated with five other designers and construction projects working in the same area.
